

Dr. Drew Karp's Younger Looking Skin Organic Face Oil

I have created a new, 100% organic face oil to perfectly compliment my Ultimate Skin Superfood supplement. Rich in antioxidants, phytonutrients, essential fatty acids, vitamins, minerals, and still unknown nutrients; they nourish your skin from the outside in. The carefully chosen 11 synergistic, organic ingredients powerfully support your facial skin to look, feel, and be its very best at any age.

I used my 35 years' experience as a holistic, energy, and functional medicine doctor to create a *totally unique, balanced, and truly effective* anti-aging and super-nourishing face oil.

Unique to this creative process, each ingredient had to have an energetic and nutritional beneficial effect on *all* aspects of the skin. See diagram below.

This one-of-a-kind, deeply balanced, all organic face oil can help transform your skin. Read the possible benefits of each ingredient on the next page.
